## America—to Work!

COMMERCE and industry, factory and farm—clear the decks for action!

The world needs replenishment. It is stripped; it is hungry. Europe's cupboard is barren. Our agriculture has had to feed the world for four years, and there still are depleted storehouses to fill and hungry nations to feed.

The unrestricted labor of the farmer saved the world in time of peril. His was a rich reward. If the workers in commerce and industry now put the same effort into increased production, another crisis will be surmounted, and the prosperity ensuing will be felt in all the channels of life.

With its foundations sound—with farmer and workingman exerting all effort for increased production—America is ready for its greatest stride.
